The Financial Stability Summit is an unprecedented convening of key stakeholders from the Cincinnati region to improve our efforts to help low-income individuals and families move toward financial stability.

Join us as we work toward creating an integrated, high-impact, regional financial stability system, implementing “best practice” strategies from around the country, and organizing support for key policy reforms.

Summit themes include:

Earn It – strategies that promote employment and earnings through workforce development efforts

Keep It – strategies that enhance earnings through access to work supports and financial services

Grow It – strategies that grow earnings and build wealth through financial education and asset building programs
